

Teamline

Teamline is the leading provider of enterprise meeting room solutions

Teamline is the leading provider of meeting room solutions, which are tightly integrated to, and work seamlessly with Microsoft's UC environment. Established by StarLeaf, Teamline serves many of the world's largest organizations, including recognizable brands from such diverse industries as finance and banking, healthcare, oil and gas, retail and manufacturing.

The Teamline approach to the meeting room provides the only solution that has been built specifically for the enterprise as an alternative to the Microsoft approach of having a Windows PC running the Microsoft Teams Rooms application. Teamline delivers on the need for total reliability, manageability, and longevity that the enterprise demands. With Teamline you are guaranteed a great meeting experience, combined with a low cost of ownership and specialist support from our team of video conferencing experts with a proven track record for delivering customer success.

Teamline is headquartered in Cambridge, UK and offers its products and services globally via a network of direct sales offices and certified resale partners.

Teamline provides an agnostic meeting room solution that allows users to join the following scheduled meetings in one touch:

- Skype for Business
- Microsoft Teams
- Cisco Webex
- Zoom
- BlueJeans
- StarLeaf
