

Join any meeting from your Teamline meeting room.

Teamline MultiJoin

Teamline MultiJoin allows you to join internal or external scheduled meetings* directly and seamlessly in one push of a button. Now all your meetings can be held in the comfort of any Teamline equipped meeting room, giving you the easiest way to join meetings and all the benefits of great video, audio and content sharing.

MultiJoin is an inherent feature that transforms Teamline equipped meeting rooms into totally agnostic environments that deliver a single join now button for each and every one of your meetings, including the following platforms:

- **Skype for Business**
- **Microsoft Teams**
- **Cisco Webex**
- **Zoom**
- **BlueJeans**
- **StarLeaf**

Invite the room or connect with Teamline Pronto

MultiJoin is an integral feature of all Teamline room systems, which when invited to a meeting will always present a join now button, regardless of the hosting platform*. When Teamline Pronto comes into the mix, you gain the easiest way to bring all of your meetings directly into the meeting room. Connecting Teamline Pronto to a laptop allows MultiJoin to scan your calendar, where it identifies all relevant meetings and transfers them onto the meeting room system, instantaneously igniting the join now button for one-touch meeting entry.

Highlights

- Standard feature of all Teamline room systems
- Transforms Teamline meeting room solution into an agnostic meeting room system
- Ignites join now buttons for all scheduled meetings*
- Invite the room and/or use Teamline Pronto for one-touch meeting entry
- Instantly transfer meetings from personal calendars to the meeting room system with Teamline Pronto
- Content sharing for everyone including guests
- Local and remote content sharing

Supports user workflows

Teamline room systems featuring the power of MultiJoin combined with Teamline Pronto offer the perfect fit for all bookable and non-bookable spaces. Never again will you be left wondering how to join a meeting, how to book a room or share content.

Investment protection and longevity

Teamline meeting room solutions are specifically built for Microsoft UC environments, delivering the enterprise with a seamless and consistent workflow from the desktop to the meeting room. As a purpose-built video meeting room solution, Teamline offers a superior experience to the Microsoft approach of a Windows PC running Microsoft Teams Rooms. MultiJoin further differentiates Teamline systems from PCs running Microsoft Teams Rooms by delivering the only multipurpose room system that works across all meeting platforms. Consequently, Teamline is the only complete enterprise solution that combines reliability, ease of use, manageability, and longevity.
