

The easiest way to join all meetings and share content

Teamline Pronto

Pronto solves the biggest frustrations users face when joining meetings. It seamlessly transfers Skype for Business, Microsoft Teams, Webex, Zoom, BlueJeans and StarLeaf meetings from your laptop / calendar to the meeting room system. It instantly lights up the join now button, and provides the easiest way to join and share content.

Bring your own meeting to the meeting room

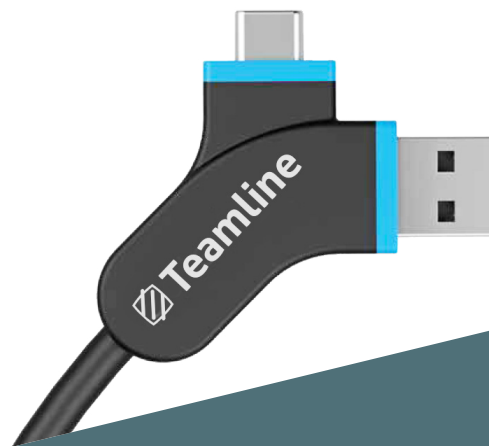

You've received an invite to attend a meeting but want to join from a meeting room. Simply go to any available room equipped with Teamline, connect Pronto to your laptop and watch as it immediately lights up the join now button – allowing you to enter your meeting in one touch.

Share content

Sharing content has never been easier. As soon as you connect Pronto to your laptop, your screen is instantly shared. That's whether you are in a Skype Meeting or any other or just using the room for an in-person meeting.

Supports modern user workflows

Pronto is the perfect fit for all bookable and non-bookable spaces. Never again will you be left wondering how to book a room, join a meeting or share content.

Highlights

- Take your meeting into any available meeting or collaboration space
- Synchronizes your calendar meeting invitations with the Teamline room system
- Lights up the join now button for seamless meeting join
- Simple and fast content sharing that works for everyone including guests
